

# Project Concept

Project has the ultimate goal to establish a permanent and sustainable Network of scientific and nonscientific institutions, stakeholders and private sector enterprises belonging in the EU and third countries located in two significant areas:

**The Mediterranean and The Black Sea regions.**

*The main focal points of the project will be the usage and application of Earth Observation (EO) in the following topics*

- EO in coastal monitoring
- EO in water and soil resources management
- EO in mining and mineral exploration

Grant Agreement No: 603534

Funding scheme: Coordination Action

Work Program Topic: ENV.2013.6.5-4,  
Knowledge platforms, networking and  
uptake of research results for strengthened  
international R&I cooperation

Duration: 24 months

Starting date: 01.06.2013

# IASON

Fostering sustainability and uptake of  
research results through networking  
activities in Black Sea & Mediterranean Areas

[www.iason-fp7.eu](http://www.iason-fp7.eu)

The IASON project is partially funded by the EC

# Clustered Projects

IASON aims to build on the experiences gained by 5 FP7 funded projects:

*OBSERVE, enviroGRIDS, GEONETCab, EGIDA, and BalkanGEONet.*

**WP1** Project Management

**WP2** Assessment of existing and on-going research efforts in the Mediterranean and Black Sea / Network of Networks - Requirements & Design

**WP3** R&I Synergies: Fostering Cooperation

**WP4** Sustainable Funding

**WP5** R&I Uptake of Applications Results in Fostering collaborative Future action in Mediterranean and Black Sea Regions

**WP6** Dissemination and awareness strategy

**WP7** Common Information Platform

In order to achieve its goal IASON will engage in:

- Visible and effective capacity building and knowledge transfer activities with regional research institutes and organizations, stakeholders and policy makers.
- Demonstration of economic development through uptake of results, best case scenarios and success stories.
- Quantifiable engagement of research institutes, projects and networks.
- Identification of projects in the thematic fields that have potential for future cooperation.
- Creation of an innovative web based common information platform with clustering projects that demonstrate synergy potential.

Synergies with other on-going projects

Uptake of results linked to
